Work Experience

Full Stack Developer

nov 2023 – jun 2025

spiritory GmbH – Munich, Germany (Remote)

Building and maintaining scalable web applications using TypeScript, Node.js, and modern stacks. Working on core product features and performance improvements in a fast-paced startup.

Freelance Full Stack Developer

2023 – current

Upwork · Remote

Delivered full-stack projects including:

- A crypto screener app (React, Node.js, Binance API, Stripe, CoinPayments)
- Dynamic file system with NestJS backend and custom Express API
- Email notification systems and admin panels
- Rated ★ 5.0 across 13+ completed jobs.

Full Stack Intern

aug 2023 – nov 2023

LochLAN Technologies

Built backend systems using PostgreSQL and JWT. Contributed to frontend modules, handled form integration, and performed sysadmin tasks on DigitalOcean droplets.

Education

AIEP

2023 – current

Computer Engineering with a specialization in Software Development
