Nicolas Torres

FULL-STACK ENGINEER

nicotordev@gmail.com

www.nicotordev.com

Courses

- Design Databases With PostgreSQL (codecademy)
- Learn Intermediate Java Course (codecademy)

Language

- English, fluent.
- Spanish, native.

ABOUT ME

Senior Full Stack Engineer with strong experience building scalable marketplaces, AI-powered systems, SaaS platforms, and high-performance web applications. Proven ability to take full ownership from architecture design to deployment, translating complex business requirements into production-ready solutions.

EXPERIENCE

Senior Full Stack Engineer – Spiritory GmbH & Marketplace Platforms
2023-2025

Led Professional Seller onboarding with Tax/KYC validation workflows.
- Refactored international shipping engine (tiered pricing + tracking).
- Improved frontend architecture and reduced technical debt in long-term marketplace projects.
- Migrated data layer to React Query, improving performance and caching.
- Built admin dashboards for operational tooling and payout management.
- Delivered scalable full-stack dashboard systems (React / Next.js / Tailwind).

Full Stack Engineer – AI & Compliance Systems

Jan 2024 – Present (Multiple US Clients)

- Built Legal Compliance MVP integrating OpenAI APIs for document analysis.
- Designed backend orchestration systems for AI workflows.
- Implemented LLM-based feature integrations in production SaaS platforms.
- Translated complex regulatory and business logic into intuitive UX flows. • Delivered scalable backend restructuring in Next.js environments.

**Full Stack & DevOps Engineer –
Infrastructure & Systems**

- Configured Nginx, Ubuntu servers, and deployment pipelines.
- Delivered infrastructure automation reducing delivery timelines (3-day project completed in 12
- hours).
- Implemented authentication systems (Clerk) and Neon DB integrations.
- Built file server systems with drag-and-drop functionality.
- Optimized CMS and static page architectures for performance and maintainability.

TECHNICAL STACK

• Frontend: React, Next.js, TypeScript, Tailwind CSS, Shadcn/UI, MUI
• Backend: Node.js, Express, Prisma, PostgreSQL, MySQL, REST APIs
• Cloud & DevOps: Nginx, Ubuntu, CI/CD, Azure DevOps, Linux
• AI & Automation: OpenAI API, LLM integrations, RAG systems, n8n
• Systems: API design, Auth systems (Clerk), DB optimization, Performance tuning, i18n
