PROFESSIONAL SUMMARY

Full-Stack Web Engineer specialized in TypeScript, Next.js, React, and Node.js, with a strong focus on building scalable, high-performance SaaS platforms and AI-powered applications. Proven experience delivering production-ready systems across international teams in Germany, Singapore, the United States, and Chile.

RELEVANT EXPERIENCE

Invernova SpA — Aug 14, 2026 - Present

Senior Full Stack Engineer – Dermalabs

- Collaborated with a 3-person team to build the Dermalabs B2B ecommerce MVP for Invernova SpA, using TypeScript, Next.js, React, and Supabase. Implemented professional onboarding, quantity-based pricing, checkout with Mercado Pago and Webpay, and the Odoo integration for inventory and invoicing.

Shred Labs, LLC. — Nov 23, 2025 - Present

Senior Full-Stack Engineer (TypeScript + AI)

- Collaborated with a 3-person team to develop the galerie MVP using TypeScript (Hono) and React with Vite, implementing onboarding flows, product personalization logic, and social features. Additionally, contributed to shred.app with a focus on the user onboarding process, implementing OAuth authentication and core APIs.

Produncan Lands — Jan 21, 2026 - Jun 11, 2026

Full-Stack Engineer

- Led the development of produncan.cl, focusing on high-performance architecture. I defined the data structures in Directus and implemented a robust SSR strategy to hit a 100% score on Google PageSpeed Insights. Beyond building the entire frontend, I integrated specialized features like Google Maps to enhance the user experience.

Sonik, S.A.S — Jul 8, 2025 - Jan 15, 2026

Part-time Full Stack Developer

- Led the development of the sonik.fm ticketing app, implementing WebSockets for real-time POS (Point of Sale) machine integration. Collaborated with a cross-functional team of 10+ members in feature planning and agile meetings, while consistently managing bug fixes and technical ticket resolution.

Regulex — Jun 29, 2025 - Nov 15, 2025

Full-Stack Developer

- Architected and developed a legal compliance MVP, integrating OpenAI to transform complex regulatory requirements into intuitive, functional web solutions. Focused on translating intricate legal concepts into a user-friendly interface, ensuring high quality and clear communication throughout the project lifecycle. Recognized by the client for technical excellence and the ability to convert abstract needs into production-ready features.

Shadcnblocks.com — Jun 28, 2025 - Sep 8, 2025

Front End Developer

- Contributed to the development and expansion of a premium admin dashboard template. Designed and built production-ready components, complex layouts, and app patterns (Kanban, Ecommerce, and Dashboards) using Next.js, Tailwind CSS, and shadcn/ui. Focused on creating reusable UI blocks and improving product usability for a global customer base, maintaining high standards of code quality through GitHub-based peer reviews.

Spiritory GMBH

Nov 16, 2023 - Aug 30, 2025

Full-Stack Developer

- Built and scaled a B2B marketplace using Next.js, Node.js, Prisma, and PostgreSQL. Developed key features including seller onboarding (KYC/tax) and refactored shipping systems for scalability and real-time tracking. Designed robust APIs and delivered high-performance, mobile-first interfaces. Improved system architecture, state management, and CI/CD workflows. Collaborated closely with product and engineering teams to ship reliable, production-ready solutions.

ADDITIONAL EXPERIENCE

Remote

Aug 3, 2023 - Present

Freelance Full-Stack developer

Top-Rated Full-Stack Web Engineer | Specialist in AI & Modern Web Stacks
"Versatile Freelance Developer with a 94% Job Success Score on Upwork and over 1,400+ hours of delivered high-quality code. Proven track record of architecting scalable solutions for international clients using TypeScript, Next.js, and Node.js. Expert in translating complex business requirements into production-ready applications, with a specialized focus on AI integrations and high-performance frontend architectures."

SKILLS

Technical Skills:

TypeScript, JavaScript, Next.js, React, Node.js, PostgreSQL, Prisma ORM, REST APIs, GraphQL, Web Development

AI & Automation:

OpenAI API, AI Integration, LLM Applications, Embeddings, Automation Workflows
